

Universal Energy Clearing

Quantum Activated Codes (QAC)

Everything in the universe is fundamentally composed of energy that vibrates at a certain frequency to create a resonance. This resonance is signalling the environment, the blueprint DNA and tone to create an overall alignment and balance for the whole system.

We can imprint, capture and potentize specifically targeted resonance energies, frequencies, vibrations, rates, tones, fractals, octaves and 'intent' into a physical silica-based crystal substrate which we call Quantum Activated Codes (QACs).

These QACs will then hold the 'blueprint' for which they are created for. They can easily be added together to create a stronger and quicker result. For example, *Body Field Alignment*, *Personal Power Set*, *Soil Balance*, *Desire To Heal*, and all others can easily be broadcasted onto the farm, animals and humans.

Any QAC/QACs can then be added into your Radionics input well for a direct broadcast and/or copied into another medium (water, sugar pills, silica crystal etc.).

They are also used on the Quantum Broadcasters with our Universal Energy Tesla Coil as free-standing resonance broadcasters. QACs can save you time researching the appropriate rates and inputs for an issue, reduce broadcast time, and they will not lose their effectiveness over time.

Customized QACs can be made up for any weeds, pests and disease issues. These are best made for each individual to capture the unique imprint of the place and concern.

Today's environment, stress, lifestyle and also inherited trauma, imprints and passed-down issues can have a change on your genetic blueprint. When this blueprint is moving too much away from its origin, we get physical symptoms like chronic pain or fatigue, physical blockages, and

experience on/off pain in the body. Some of these underlying issues are not visible and cannot be felt immediately.

These QACs are designed to reset your physical system to the original blueprint. The change is made in the energetic field, which will bring changes to the physical structure in humans, animals, plants, and all living beings.

The Blueprint Reset and Boost Set has 7 QAC's. Best to check which QAC or QACs from this set needs to be used first. They can be also combined if needed.

Emotional Release Set (5 QACs) - \$225

When working with this set, you are releasing deep-seated emotions, drama and trauma. Typically, these are the thoughts, feelings, emotions and challenges that are so overwhelming in life, that we tend to shove them away. They won't go away until you process them. Processing causes unhappy feelings to surface and once again and who wants to deal with past pain? The repetitive cycle eventually causes us physical body difficulties, illness, disease, etc., and the root cause often can be found in the issues that have been buried long ago. Processing these issues brings good benefits.

You decide what emotions are holding you back from your own empowerment and we work together to release them once and for all. Energy cords are cut! Forgiveness is granted, and unconditional Love is embraced!

The Emotional Release Set has 5 QACs. It's best to check which QAC or QACs from this set needs to be used first. They can be also combined if needed.

Chakra Sets (4 QACs) - \$200

The seven chakras are the main energy centers of the body, that is what the narrative is out there. You've probably heard people talk about "unblocking" their chakras, which refers to the idea that when all of our chakras are open, energy can run through them freely, and harmony exists between the physical body, mind, and spirit. Chakra translates to "wheel" in Sanskrit, and you can imagine them like wheels of free-flowing positive energy.

Chakras are not just looked at from the front, rather they turn like a wheel, and they can be found and measured in the front and back. Nothing in this universe is a single polarity, that is why the traditional teachings starting from the root chakra and only going up is missing one of the most important chakras which is the root chakra, who brings in the polarity below.

During my work we discovered 13 majors chakras and quite a variety of other smaller chakras, energy centers in and around the body. When we balanced the 4 most connected ones, they will then clear, align, balance, harmonize and rest all the chakras – major and smaller ones. A quick and easy rest of the entire chakra system. Balance them all together.

Earth Star Chakra This chakra is fundamental to our chakra system and is positioned around 30cm beneath our feet. This chakra is our energetic tether, attaching us firmly to Earth's energies and holds and pulls in information. It is this connection that keeps us from feeling disconnected or unbalanced. It is the starting point from energies flows in, keeps us rooted, promoting balance and preventing us from feeling lost or overwhelmed by the complexities of life or spiritual growth. It ties us securely to our planet. Its influence on our energy system is critical in maintaining our overall balance and ensuring that we are energetically aligned with the Earth.

Heart Chakra is the bridge between the lower chakras (associated with materiality) and the upper chakras (associated with spirituality). As the name suggests, this chakra can influence our ability to give and receive love—from others and ourselves. Someone with a blocked heart chakra will have difficulty fully opening up to the people in their life. If someone's heart is open, they can experience deep compassion and empathy.

Higher Self Chakra Located approximately 15-20cm above the crown of the head and starts with the expansion of consciousness beyond the physical body. Connecting our minds to the cosmic wisdom of other galaxies. And obtain information from galactic sources.

Soul Star Chakra Located approximately 45-50cm above the crown of the head and sometimes also called the Stellar Gateway chakra, is one of the higher or transcendental chakras. This chakra is the gateway to the cosmos. It serves as a bridge between all the chakras, spiritual essence, and the universe. It is a connection point to the source and higher realms. It is a high-frequency light that builds profound spiritual connections, facilitating access to higher realms of knowledge and wisdom.
